	61	<p>Quantity: 1 Product category: Professional skin treatment device Brand: Beijing Sanhe Beauty Model: OEM LSS303 Year of construction (yyyy): 2021 Serial number: OEM-LSS303-2101002 Power (Watt): 2000 Voltage (V): 220 Accessories: Equipped with pico laser, Kacon pedal control and 2 protective glasses. Additional information: The pico laser, like other lasers, works by means of light pulses. The big difference with traditional lasers is that the pico laser produces light pulses of only a picosecond. This is 1000 times faster than traditional lasers that operate at the speed of a nanosecond. The big advantage of this is that the pulse is so powerful that (ink) pigments are pulverized into much smaller particles than with other lasers. Because the particles are so small, the body removes them more quickly. This means fewer</p>	100€

		<p>treatments are required. In addition, the pico laser makes it possible to treat the right spot very precisely, thus sparing 'healthy' skin. Dimensions mm (LxWxH): 650x500x450 Invoice amount (€ incl. VAT): 24193.95 Invoice date (dd-mm-yyyy): 03/03/2021 Weight category: 23 to 50 kg condition: Used Location: Cage</p>
