	Item	Description	Start price
	1	<p>Quantity: 1x Product category: Brand: Model: Home battery 15.87Kwh with inverter Additional information: Complete system to store or trade your own energy. Consisting of a Seplos Home battery 15 kWh, Victron inverter Multiplus II 48/5000/35-32, Victron cerbox GX to control everything and a complete installation manual and all this with a 10-year warranty on the battery system and 5 years on all Victron equipment. With this system you use your stored energy when you need it. By smartly storing and returning energy, you can not only save on your energy bill, you can even earn money with it. The system can be used in combination with solar panels, but also with just mains power. If the grid fails, you can be sure that your equipment will still work. The battery can be charged with electricity from solar panels or if you do not have solar panels, this battery can be charged with negative energy prices. The system can be set up so that you prefer your own consumption or want to trade on the energy market. The battery is large enough to supply a complete household with power and can also function as a reliable backup if the electricity grid fails. Condition of the entire system: new and comes with a 10-year warranty on the battery and a 5-year warranty on the Victron equipment. This system works with all possible PV inverters. The multiplus delivers 4000 watts of continuous power to your devices and can charge the battery with a maximum of 70A 48V.</p> <p>Battery specifications: Storage: 15.87 kWh Configuration: 1P16S Nominal voltage: 51.2v Nominal capacity: 310Ah Cutoff voltage: 41.6v</p>	2.600€

Voltage range: 42v - 58.4v
Charge / discharge: 155A
Maximum charge discharge: 200A
Weight: 113kg
Dimensions: 817x412x267mm
SOC range: 15-95%
Cycles: 8000
Communication: CAN & RS485
With this system you use your stored energy when you need it. By smartly storing and returning energy, you can not only save on your energy bill, you can even earn money with it.

The system can be used in combination with solar panels, but also with just mains power. If the grid fails, you can be sure that your equipment will still work.

The battery can be charged with electricity from solar panels or if you do not have solar panels, this battery can be charged with negative energy prices. The system can be set up in such a way that you prefer your own consumption or want to trade on the energy market.

The battery is large enough to supply an entire household with power and can also function as a reliable backup if the grid fails. Condition of the entire system: new and comes with a 10-year warranty on the battery and a 5-year warranty on the Victron equipment.

This system works with all possible PV inverters. The multiplus supplies 4000 watts of continuous power to your devices and can charge the battery with a maximum of 70A 48V. Battery specifications:

The washbasin column is first extensively sanded and roughly processed by hand, before four different protective layers (anti-scratch, anti-grease, waterproof and color coatings) are applied. Each phase is carried out by hand and the washbasin column is sanded again and again to achieve the highest possible result. If damage occurs accidentally, for example due to the fall of a hard object, the specially supplied wax can be applied with a cloth. This wax not only masks the damage but also provides protection again, the coating is protected against normally used bathroom cleaning products.</p>	432€
