	7	Quantity: 1x Product category: Brand: Model: 160x200cm - Beige - Electric - Premium High End	968€

Bed covering: Fabric
Color: Beige
Dimensions mm (LxWxH): 1600x2000
Additional information: Looking for an electrically adjustable box spring with a lot of comfort and of top quality, then this is the right choice! This combination offers support in the right places through the pocket spring mattress with 7 comfort zones. A topper with a split in the head section is placed on top of it. The pocket sprung bases take the sleeping comfort to a higher level. Experience the convenience of the electrically adjustable head and foot end. The motor is suspended in a metal frame and is located in the upholstered skirting board. The shifting of the mattresses is kept to a minimum by the anti-slip layers on the mattresses and the sprung boxes in combination with the mattress stopper. To extend the life of your mattresses and prevent contour formation, regular turning and flipping is recommended!

1x Electrically adjustable box spring Premium High End, size 160x200cm beige upholstered, with remote control electrically adjustable head and foot end, with a thick upholstered headboard approx. 160x115cm, 2x 80x200cm skirting board with motor, 2x 80x200cm sprung boxes, including 2x 80x200cm upholstered sprung mattresses. Including 1x 160x200 white cold foam split topper approx. 6cm thick, upholstered mattress brackets.

	8	<p>Quantity: 1x Product category: Brand: Model: Freestanding Bath - Ribbed - Matt White - 170x85x58cm - Acrylic Color: Additional information: This freestanding bath adds luxury and flexibility to your bathroom. The ribs give the bath a sleek look, making it a real eye-catcher in your bathroom. Because the bath is not directly against the wall, the bathroom can feel larger and more spacious. This bath is made of high-quality acrylic. Acrylic is easy to maintain, durable, feels comfortable on the skin and keeps water warm for longer. The light material ensures that the bath is easy to install. The bath is made durable with fiberglass mats and reinforced with a stainless steel frame. There is an overflow as standard so that the bath cannot overflow. The drain plug and flexible drain hose are included as standard.</p> <p>FB-5120 Dimensions (lxwxh): 170x85x58cm Material: Acrylic Colour: Matt White Overflow: Yes Drain plug: Included Siphon: Included Placement: Freestanding Weight: Net weight 53kg, gross weight 62kg Valued at: € 2695,-</p> <p>Dimensions mm (LxWxH): Weight category: 50 to 100 kg Condition: New Lying in / on: Original packaging Location: Hengelo OV, Netherlands Bed upholstery:</p>	884€

	19	<p>Quantity: 1x Product category: Brand: Model: Home battery 16.5Kwh - with inverter - Standing Additional information: Complete system to store or trade your own energy. Consisting of a Seplos Home battery 16.5Kwh, Victron inverter Multiplus II 48/5000/70-35,</p>	2.500€

Victron cerbox GX to control everything and a complete installation manual and all this with a 10-year warranty on the battery system and 5 years on all Victron equipment.
With this system you use your stored energy when you need it. By smartly storing and returning energy, you can not only save on your energy bill, you can even earn money with it. The system can be used in combination with solar panels, but also with just mains power. If the grid fails, you can be sure that your equipment will still work.

The battery can be charged with electricity from solar panels or if you do not have solar panels, this battery can be charged with negative energy prices. The system can be set up in such a way that you prefer your own consumption or want to trade on the energy market.

The battery is large enough to supply an entire household with power and can also function as a reliable backup if the electricity grid fails.

Condition of the entire system: new and comes with a 10-year warranty on the battery and a 5-year warranty on the Victron equipment.

This system works with all possible PV inverters. The multiplus delivers 4000 watts of continuous power to your devices and can charge the battery with a maximum of 70A 48V.

Battery specifications:

Storage: 16.5Kwh

Configuration: 1P16S

Nominal voltage: 51.2v

Nominal capacity: 330Ah

Cutoff voltage: 41.6v

Voltage range: 42v - 58.4v

Charge / discharge: 155A

Maximum charge discharge: 200A

Weight: 113kg

Dimensions: 817x412x267mm

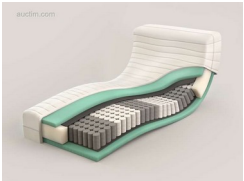

SOC range: 15-95%

Cycles: 11000

Communication: CAN & RS485

		<p>Colour: Dark grey Dimensions: 40x23x11cm Included: 1 can of maintenance and protective wax-in-1 and 1 set with 2 mounting brackets Not included: Taps, drain plugs and siphons</p> <p>Made largely by hand in Indonesia. The washbasin is first extensively sanded and roughly processed by hand, before four different protective layers (anti-scratch, anti-grease, waterproof and colour coatings) are applied. Each phase is carried out by hand and the washbasin is sanded again and again to achieve the best possible result. Should damage occur by accident, for example by falling from a hard object, the specially supplied wax can be applied with a cloth. This wax not only masks the damage but also offers new protection, the coating is protected against normally used cleaning agents for the bathroom.</p> <p>Dimensions mm (LxWxH): Weight category: 0 to 23 kg Condition: New Lying in / on: Original packaging Location: Hengelo OV, Netherlands Bed covering:</p>

Product category:

Brand:

Model: 180x210cm - Electric - Gray - Premium High End

Bed covering: Fabric

Color: Gray

Dimensions mm (LxWxH): 1800x2100

Additional information: Looking for an electrically adjustable box spring with a lot of comfort and of top quality, then this is the right choice! This combination offers support in the right places through the pocket spring mattress with 7 comfort zones. A topper with a split in the head section is placed on top of it. The pocket sprung bases take the sleeping comfort to a higher level. Experience the convenience of the electrically adjustable head and foot end. The motor is suspended in a metal frame and is located in the upholstered skirting board. The shifting of the mattresses is kept to a minimum by the anti-slip layers on the mattresses and the sprung boxes in combination with the mattress stopper. To extend the life of your mattresses and prevent contour formation, regular turning and flipping is recommended!

1x Electrically adjustable box spring Premium High End, size 180x210cm grey upholstered, with remote control electrically adjustable head and foot end, with a thick upholstered headboard approx. 180/115cm, 2x 90/210cm skirting board with motor, 2x 90/210cm sprung boxes, including 2x 90x210cm upholstered sprung mattresses. Including 1x 180/210 white cold foam split topper approx. 6cm thick, upholstered mattress brackets.

	50	<p>Quantity: 1x Product category: Brand: Model: Freestanding Bath - Ribbed - Matt White - 170x80x58cm - Acrylic Color: Additional information: This freestanding bath adds luxury and flexibility to your bathroom. The ribs give the bath a sleek look, making it a real eye-catcher in your bathroom. Because the bath is not directly against the wall, the bathroom can feel larger and more spacious. This bath is made of high-quality acrylic. Acrylic is easy to maintain, durable, feels comfortable on the skin and keeps water warm for longer. The light material ensures that the bath is easy to install. The bath is made durable with fiberglass mats and reinforced with a stainless steel frame. There is an overflow as standard so that the bath cannot overflow. The drain plug and flexible drain hose are included as standard.</p> <p>FB-5119 Dimensions (lxwxh): 170x80x58cm</p>	856€

	52	<p>Quantity: 2x Product category: Brand: Model: Home batteries 16.5Kwh - with inverter - Standing Additional information: Complete system to store or trade your own energy. Consisting of 2 Seplos Home batteries 16.5Kwh, 1 Victron inverter Multiplus II 48/5000/70-35, Victron cerbox GX to control everything and a complete installation manual and all this with a 10-year warranty on the battery system and 5 years on all Victron equipment. With this system you use your stored energy when you need it. By smartly storing and returning energy, you can not only save on your energy bill, you can even earn money with it. The system can be used in combination with solar panels, but also with just mains power. If the grid fails, you can be sure that your equipment will still</p>	4.200€

work.

The battery can be charged with electricity from solar panels or if you do not have solar panels, this battery can be charged with negative energy prices. The system can be set up in such a way that you prefer your own consumption or want to trade on the energy market.

The battery is large enough to supply an entire household with power and can also function as a reliable backup if the electricity grid fails.

Condition of the entire system: new and comes with a 10-year warranty on the battery and a 5-year warranty on the Victron equipment.

This system works with all possible PV inverters.

The multiplus delivers 4000 watts of continuous power to your devices and can charge the battery with a maximum of 70A 48V.

Specifications per battery:

Storage: 16.5Kwh

Configuration: 1P16S

Nominal voltage: 51.2v

Nominal capacity: 330Ah

Cutoff voltage: 41.6v

Voltage range: 42v - 58.4v

Charge / discharge: 155A

Maximum charge discharge: 200A

Weight: 113kg

Dimensions: 817x412x267mm

SOC range: 15-95%

Cycles: 11000

Communication: CAN & RS485

With active balancing circuit board to keep the battery in good condition and balanced. When the difference in the lowest and highest voltage cell is more than 50mv, it will start to balance all cells.

	81	<p>Quantity: 1x Product category: Brand: Model: ESS system - 9000KVA - battery 16.5Kwh Additional information: Consisting of a fully assembled ESS system from Victron 3 phase 9000KVA power with a Seplos Home battery 16.89 kWh</p> <p>The advantage of this set is that it is plug and play, you only have to connect power cables to it. The Victron Energy Storage System (ESS) is an energy storage system that is intended for self-consumption of generated energy or trading in this energy. Together with solar panels, it can serve as an energy backup system in the event of a power failure from the grid. Or to reduce your connection so that you pay less fixed fees. It also stores excess solar energy in the batteries so that your inverters continue to work despite the grid being overloaded.</p> <p>Optimal use of solar power: When more solar power is generated than consumed, the excess energy is stored in batteries. This stored energy can then be used when there is insufficient solar power available, for example when it is cloudy or during night hours. You can also fully charge your batteries when the price is very low, often at night, to enjoy cheap power the next day.</p> <p>Pay less with a smaller home connection: With this system it is possible to apply peak shaving to the existing home connections. In the Netherlands we have fixed costs that you pay according to the size of the connection, this can be 1x 35A or 3x 25A 3x35 3x40 or 3x50. If you were to switch from the standard 3x 25A connection to a 3x35A, you would pay 1200 euros more per year! With this system you can reduce all power to 3x 25A so that you always pay the lowest fixed costs.</p> <p>Backup in case of power failure:</p>	5.100€
---	----	---	--------

The stored energy can also be used if the grid connection fails, for example due to a cable break in the street or a regional or even national outage. Depending on the battery capacity, it is determined how much energy can be used for later moments. The switchover takes place in milliseconds and is fully automatic, so that you do not notice anything. During planned maintenance, the system can be set to fully charge the batteries so that if the power fails, you can use this power immediately. The entire home is simply supplied with energy during the maintenance.

Battery:

The battery is large enough to supply an entire household with power and can also function as a reliable backup if the electricity grid fails. Condition of the entire system: new and comes with a 10-year warranty on capacity loss. If this has less than 70% within 10 years, we will provide you with a new one.

Specifications Battery system:

Storage: 16.89 kWh
Configuration: 1P16S
Nominal voltage: 51.2v
Nominal capacity: 330Ah
Cutoff voltage: 41.6v
Voltage range: 42v - 58.4v
Charge / discharge: 155A
Maximum charge discharge: 200A
Weight: 113kg
Dimensions: 817x412x267mm
SOC range: 15-95%
Cycles: 11000
Communication: CAN & RS485

With active balancing circuit board to keep the battery in good condition and balanced. When the difference in the lowest and highest voltage cell is more than 50mv, it will start to balance all cells.

Technical data ESS system:

3x Multiplus II 3000 (total 9000KVA)
1x Seplos Mason battery with 16.5Kwh capacity

	154	<p>Quantity: 1x Product category: Brand: Model: 180x200cm - Electric - Gray - Premium High End</p>	1.027€

Bed covering: Fabric
Color: Gray
Dimensions mm (LxWxH): 1800x2000
Additional information: Looking for an electrically adjustable box spring with a lot of comfort and of top quality, then this is the right choice! This combination offers support in the right places through the pocket spring mattress with 7 comfort zones. A topper with a split in the head section is placed on top of it. The pocket sprung bases take the sleeping comfort to a higher level. Experience the convenience of the electrically adjustable head and foot end. The motor is suspended in a metal frame and is located in the upholstered skirting board. The shifting of the mattresses is kept to a minimum by the anti-slip layers on the mattresses and the sprung boxes in combination with the mattress stopper. To extend the life of your mattresses and prevent contour formation, regular turning and flipping is recommended!

1x Electrically adjustable box spring Premium High End, size 180x200cm grey upholstered, with remote control electrically adjustable head and foot end, with a thick upholstered headboard approx. 180/115cm, 2x 90/200cm skirting board with motor, 2x 90/200cm sprung boxes, including 2x 90x200cm upholstered sprung mattresses. Including 1x 180/200 white cold foam split topper approx. 6cm thick, upholstered mattress brackets.

This set consists of the following parts:

- 2x LFP battery 16.5kWh >10,000 cycles total 33kWh battery capacity
- Multiplus 5000 GX
- Energy Meter 3 phase
- Victron busbar and megafuse with associated fuses
- Battery cables with m8 eyes
- Earth wire
- Communication cables

You can build the system yourself after purchase, we provide an installation manual.

The system is designed in such a way that it can always be expanded to a 3-phase system or with multiple batteries.

The total inverter capacity is 4kW (4000W) and a battery capacity of 33kWh.

The system comes with a 5-year warranty on the Victron equipment and a 10-year warranty on the batteries.

The system works with all PV systems

Trading on the energy market is possible with this system.

Additional information: Victron ESS 9kVa 3 phase (3x 3kVa), 6.4kW inverter power, 33kWh battery capacity

This set consists of the following parts:

- 2x LFP battery 16.5kWh >10,000 cycles total 33kWh battery capacity
- 3x Multiplus 3000
- Cerbo GX mk2
- Energy Meter 3 phase
- Victron busbar and megafuse with associated fuses
- Battery cables with m8 eyes
- Earth wire
- Communication cables

You can build the system yourself after purchase, we provide an installation manual.

The system is designed in such a way that it can always be expanded to multiple batteries

The total conversion capacity is 6.4kW (6400W) and a battery capacity of 33kWh.

The system comes with a 5-year warranty on the Victron equipment and a 10-year warranty on the batteries.

The system works with all PV systems

Trading on the energy market is possible with this system.

8.200€

Quantity: 1x

Product category:

Brand:

Model: ESS 24kVa 3 phase - 19.2kW inverter power - 16.5kWh battery capacity

Additional information: Victron ESS 24kVa 3 phase, 19.2kW inverter power, 16.5kWh battery capacity

This set consists of the following parts:

- 1x LFP battery 16.5kWh >10,000 cycles
- Fully assembled Victron system PLUG and PLAY (3x multiplus 8000)
- Energy meter 3 phase for controlling current trading
- Shunt
- Machines
- Busbars
- Battery cable set 1 meter m8 eye
- Works with dynamic current contracts

The total inverter power is 19.2kW (19200W) and a battery capacity of 16.5kWh.

The system comes with a 5-year warranty on the Victron equipment and a 10-year warranty on the batteries.

The system works with all PV systems

Trading on the energy market is possible with this system.

Dimensions mm (LxWxH):

Weight category: 100 to 250 kg

Condition: New

Lying in / on: Original packaging

Location: Hengelo OV, Netherlands

373

Quantity: 1x

Product category:

Brand:

Model: ESS 24kVa 3 phase - 19.2kW inverter power - 99kWh battery capacity

Additional information: Victron ESS 24kVa 3 phase, 19.2kW inverter power, 99kWh battery capacity

This set consists of the following parts:

- 6x LFP battery 16.5kWh >10,000 cycles
- Fully assembled Victron system PLUG and PLAY (3x multiplus 8000)
- Energy meter 3 phase for controlling current trading
- Shunt
- Machines
- Busbars
- Battery cable set 1 meter m8 eye
- Works with dynamic current contracts

The total inverter power is 19.2kW (19200W) and a battery capacity of 99kWh.

The system comes with a 5-year warranty on the Victron equipment and a 10-year warranty on the batteries.
