	2	<p>Quantity: 1x Product Category:</p> <p>Brand:</p> <p>Model: Victron Energy Storage System - 5 kVA MultiPlus-II with 15 kWh LFP Battery Additional Information: Victron Energy Storage System - 5 kVA MultiPlus-II with 15 kWh LFP Battery</p> <p>This is a complete energy storage system from Victron Energy, consisting of a 5 kVA MultiPlus-II inverter/charger combined with a 15 kWh lithium iron phosphate (LFP) battery. Fully mounted and programmed on a plywood panel.</p> <p>This system is ideal as a home battery, for solar energy storage, emergency power, or for off-grid</p>	2.825€

and hybrid installations. Thanks to the high efficiency and long lifespan of the LFP battery, this is a reliable and future-proof energy solution.

☑ Benefits

5 kVA Victron MultiPlus-II inverter/charger

15 kWh LFP battery: safe, low-maintenance, and long-lasting

Suitable for on-grid, hybrid, and off-grid applications

Smart energy management and monitoring (VRM) available

Professional quality for residential and commercial use

Very interesting for installers, companies, and individuals looking for high-quality energy storage that is already fully configured and installed. The system is plug and play.

The total inverter power is 4.0 kW (4000 W) and the battery capacity is 15 kWh.

The system comes with a 5-year warranty on the Victron equipment and battery.

The system works with all PV systems.

Trading on the energy market is possible with this system.

Please note: the photos illustrate the installation. The inverter supplied on the panel is the Multiplus II 5000.

Panel dimensions: 971 x 765 mm

You will receive 3 months of software support from the seller after purchase.

		Weight category: 100 to 250 kg Condition: New	
	3	Quantity: 1x Product Category: Brand: Model: Victron Energy Storage System – 4K5 4kW (4.5 kVA) MultiPlus-II with 15 kWh LFP Battery Additional information: Victron Energy Storage System – 4K5 4kW (4.5 kVA) MultiPlus-II with 15 kWh LFP Battery This is a complete energy storage system from Victron Energy, consisting of a 4K5 4kW (4.5 kVA) MultiPlus-II inverter/charger combined with a 15 kWh lithium iron phosphate (LFP) battery. Fully mounted and programmed on a concrete plywood board. This system is ideal as a home battery, for solar energy storage, emergency power supply, or for off-grid and hybrid installations. Thanks to the high efficiency and long lifespan of the LFP battery, this is a reliable and future-proof energy solution. ☑ Benefits 4K5 4kW (4.5 kVA) Victron MultiPlus-II inverter/charger 15 kWh LFP battery: safe, low-maintenance, and long-lasting Suitable for on-grid, hybrid, and off-grid applications Smart energy management and monitoring (VRM) available	2.750€

	4	<p>Quantity: 1x Product Category:</p> <p>Brand:</p> <p>Model: Victron Energy Storage System – 6K5 6kW (6.5 kVA) MultiPlus-II with 15 kWh LFP Battery Additional information: This is a complete energy storage system from Victron Energy, consisting of a 6K5 6kW (6.5 kVA) MultiPlus-II inverter/charger</p>	2.875€

combined with a 15 kWh lithium iron phosphate (LFP) battery. Fully mounted and programmed on a concrete plywood board.

This system is ideal as a home battery, for solar energy storage, emergency power supply, or for off-grid and hybrid installations. Thanks to the high efficiency and long lifespan of the LFP battery, this is a reliable and future-proof energy solution.

☑ Benefits

6K5 6kW (6.5 kVA) Victron MultiPlus-II inverter/charger

15 kWh LFP battery: safe, low-maintenance, and long-lasting

Suitable for on-grid, hybrid, and off-grid applications

Smart energy management and monitoring (VRM) available

Professional quality for residential and business use

Very interesting for installers, companies, and individuals looking for high-quality energy storage that is already fully configured and installed. The system is plug and play.

The total inverter power is 6.0 kW (6000 W) and the battery capacity is 15 kWh.

The system comes with a 5-year warranty on the Victron equipment and battery.

The system works with all PV systems.

Trading on the energy market is possible with this system.

Please note: the photos illustrate the design of the

	6	<p>Quantity: 1x Product Category:</p> <p>Brand:</p> <p>Model: Victron Energy 3-Phase Storage System – 3x 3 kVA (7.2 kW total) MultiPlus-II with 30 kWh LFP Battery</p>	5.300€

Additional information: Victron Energy 3-Phase Storage System - 3× 3 kVA (7.2 kW total) MultiPlus-II with 30 kWh LFP Battery

We are offering a professional 3-phase energy storage system from Victron Energy, consisting of 3× 3 kVA MultiPlus-II inverterchargers combined with a 30 kWh lithium iron phosphate (LFP) battery.

This system is ideal for homes and businesses with a 3-phase connection, and for applications such as solar energy storage, peak load, emergency power, and hybrid or off-grid installations. The large battery capacity ensures long autonomy and high operational reliability. ☺

Benefits

- Full-fledged 3-phase Victron system (3 x 3 kVA)
- 30 kWh LFP battery: safe, low-maintenance, and long-lasting
- Ideal for higher power outputs and continuous use
- Suitable for on-grid, hybrid, and off-grid applications
- Smart energy management and monitoring possible via Victron VRM

Very interesting for installers, businesses, and individuals looking for high-quality energy storage that is already fully configured and installed. The system is plug and play.

The total inverter power is 7.2 kW (7200 W) and the battery capacity is 30 kWh.

The system comes with a 5-year warranty on the Victron equipment and battery.

The system is compatible with all PV systems.

Trading on the energy market is possible with this system. Please note: the photos illustrate the installation. The inverters included on the panel in this lot are the Multiplus II 3000.

Panel dimensions: 1250 x 1120 mm
